“Improving the Livelihood and Strengthening the Position of Dairy Farmers in Rural Areas”

I. Background

We Effect is a Swedish development organisation present in Africa, Asia, Europe, and Latin America. Our work focuses on reducing poverty and inequality by strengthening the ability of member organizations to enable women and men, girls and boys living in poverty to improve their living conditions, defend their rights and contribute to a just society. The work is focused to the following areas: rural development, housing, gender equality, environment and financial inclusion. In Europe, We Effect is present in Albania, Bosnia and Herzegovina, Kosovo¹, Moldova, and North Macedonia.

Target groups of We Effect’s development cooperation are We Effect’s partner organizations (civil society organizations), mostly represented by member-based organizations active in rural development, farmers’ associations, producers’ groups, and cooperatives. We Effect applies a rights-based approach where development interventions are the results of the dialogue with our partner organizations, with strong local ownership, characterized by accountability, transparency, non-discrimination, and meaningful participation.

The We Effect Regional Office Europe makes significant efforts in applying sustainable and results-oriented practices by combining environmental, social, and economic development perspectives in one integrated development framework.
